

**Andreas Mitschke**

---

## **Engineering & Architecture, Airbus Group Innovations**

Andreas Mitschke is working for the Systems Engineering Department of Airbus Group Innovations. He holds an MBA from the University of Rhode Island and an engineering degree from TU Braunschweig. Andreas is working for the Airbus Company since 2004. He was first working on joint Airbus France/EADS IW research projects in Toulouse and Munich with the focus on topics around System Layout Integration, tool and data integration, and model-based Systems Engineering. Since 2009 Andreas is working at Airbus Group Innovations in Hamburg, where he has been involved among others in Requirements Management Projects of the A350 Program. Andreas is currently working on the EU funded research project CRYSTAL.
