

Rainer Ersch

Siemens, Chair of the OSLC Steering Committee

Rainer Ersch is a Senior Research Scientist for Siemens, where he is working for over 36 years. During this time he also served a director of SW Development Tools at Enterprise Communications as well as consultant and coach for System and Software Development Environments. He has been active with the OSLC community as a member of the Steering Committee for over four years and as the workgroup lead of the ALM-PLM Interoperability Workgroup.
